Product Overview

Instructions for Use

1. Pour an appropriate amount of water into the cup and add shower gel for better effect.
2. Put in the pet's paw, press the switch lightly, and the cleaning will start automatically.
Press once → [Basic cleaning]: low-speed forward rotation, stop automatically after 10 minutes.
Tap the second time → [Deep cleaning]: High-speed alternately rotating forwards and backwards, and stops automatically after 10 minutes.
Tap the third time → [Shutdown]
3. Dry the water from the pet's paw by towel
4. Pour out the dirty water and take out the silicone brush to rinse (do not put the whole machine in the water)
5. If the machine enters the overload status, after removing the external force, lightly press the power button to release the overload status.
